Reward	Syngenta	1 & 2.5 Gal	Diquat
Bluestone Crystals	Brandt	50lb Bag	Copper Sulfate
Renovate 3	SePro	2.5 Gal	Triclopyr
Round Up Custom	Bayer	2.5, 30, 55 Gal & Totes	Glyphosate
Clearcast	SePro	Qt & Gallon	Ammonium salt of imazamox
SeClear	SePro	2.5 Gal	Copper Sulfate Pentahydrate
Sonar	SePro	Qt, Gal & 8lb & 20lb container	Various formulations and sizes
SureGuard SC	NuFarm	Pints, 64oz	Flumioxazin
Radiance	Aquatrols	2.5 Gal	Copper Sulfate Pentahydrate

Aquatic Products for Golf Courses

Application Equipment

Product Name	Manufacturer	Container Size	Comments
WeeDrone-120	SeaFloor Systems	1 Unit	See below

WeeDrone-120 Benefits

- 1) Remote control and GPS guided autonomous control
- 2) Significant labor savings when used autonomously
- 3) Allows for safer, more effective aquatic applications
- 4) Ability to cover 100% of the pond or lake surface area
- 5) Nozzle housing allows for 3 different nozzles
- 6) Ease of application will enable for better aquatic programs
- 7) Can be retrofitted to deter geese and coots
- 8) Operate autonomously at night for best coot deterrent
- 9) Coyotes, lasers and flashers all effective retrofit add-ons
- 10) Watch this link for a WeeDrone-120 overview [The WeeDrone-120 by SeaFloor Systems and Sierra Pacific Turf Supply in Action! - YouTube](#)
- 11) Watch our latest demo with results here [WeeDrone 120 Demo with Results December 2021 - YouTube](#)

WeeDrone-120™
SeaFloor™

WeeDrone - 120™ Aquatic Herbicide Applications
The WeeDrone uses concentrated product with the lake or pond water. It has the ability to be used either via remote control or autonomously with included software. Install the three nozzles onto the housing unit that best suits the application need, calibrate and go!

BENEFITS

- Ability to cover 100% of surface area
- Significant labor savings by using autonomously
- Allows for safer, more effective aquatic applications and programs
- Can use up to two different products simultaneously

FEATURES

- Remote control or autonomous operation
- Can hold 2 x 2.5 gallon jugs of concentrated product
- Nozzle housing for 3 different nozzle types

SPECIFICATIONS

- Dimensions – 4 x 3 x 3(ft)
- Weight – 40 lbs (Without Batteries or Payload)
- Speed – 3.5 mph
- Endurance – 8 hours

The **WeeDrone - 120™** is a lightweight and unmanned surface trimaran developed to effectively and efficiently help maintain ponds and lakes on golf courses, parks, and other outdoor recreational facilities.

This USV is also a valuable time saver, allowing time and resource allocation into other maintenance practices.

One Person Launch & Recovery

WHAT'S INCLUDED

- All necessary batteries and chargers
- Remote Control
- Downloadable software on USB drive
